Assignment:

Experiment 1:
1. Please take a dataset of your choice and use the NN model to do sentence similarity

Experiment 2:
2. Retrain the BERT model on the same dataset

Submit a report on Experiment 1 and Experiment 2 and source code for the same.

The assignment will be rated on the following criteria
1. Analysis on why the dataset opt for the experiments
2. A clear understanding of why Exp1 is better than Exp2 if not why?
